Subject: Planning application 1 Millfield drive Polmont

Hi  
Thank you for your email advising me of the appeal of this application.

We still strongly object & feel that there is no justification for destroying natural wildlife this area is filled with an abundance of bird squirrels rabbits deer & badgers the wildlife would not recover if this natural habitat was destroyed the council has a policy of protecting wildlife this application is in total contravention to this. There is also the issue of access to the build & an increase in traffic to this very small estate. There is absolutely no reason to allow this application to go forward. Surely the natural habitat enjoyed by adults & children provides more benefit to the community than to watch it being destroyed for a few houses. Someone must protect the wildlife & natural habitat of the area. We still feel most strongly that this application be denied

Many thanks  
Mr & Mrs s williamson
